

50 Cent Wing Commandments

Thou must purchase a minimum of 2 beverages per person
Thou shall order up to 12 wings of no more than 2 flavors
to start

Thou shall not order more wings then thou can eat while at
Pub 570, this is an eat in only special and Take Out
wings are available at regular price

Thou shall order 6 additional wings after eating the first
12 wings

Thou shall expect each flavor or wings to be served as party
platters for parties of 6 or more

The wing special is meant to be a great way to try different
flavors of the Best Wings in The Poconos, not a way
for cheap bastards to eat dinner and drink water

The All Powerful God may waive beverage requirements if
additional sandwiches and or other regular priced menu
items are purchased

Thou must understand 50 cent wing days are very busy &
orders can take long because of popularity. If we in-
crease staffing to serve faster, the price will need to be
raised. If thou wants fast wings, thou can go have over
priced small wings at one of the chain restaurants.
